Location: Raffles Farm

On 5 May 2020 I examined the mare Tears Of An Angel at the request of Bruce Sherwin.

Specifically, an ultrasound examination of the reproductive tract was performed. No abnormalities were detected and the mare was in anoestrus.

This examination does not constitute a breeding pre-purchase examination as defined by the New Zealand Equine Veterinary Association and as such it should not be relied upon as a representation or expression of opinion as to breeding soundness. Also no warranty is given that the mare has not received any product preventing her from normal cyclical activity.

Yours faithfully

Please ensure that this report is forwarded to the horse's owner(s) and the person(s) responsible for the future care of the horse, as well as to the insurer, if applicable.
