Veterinary Report – Breeding Soundness

Horse: **Music Of The Night**
4yo brown mare
985 100 012 045 188

Location: Pat Carey Racing Stables, Mornington, VIC

Date: 15th June 2021

Music Of the Night was examined today to determine suitability for use as a broodmare.

Vulva, vestibule, and clitoris were examined. No clinically significant abnormalities were detected. Vulva conformation was good. Caslicks Procedure had not been performed.

Vagina and cervix were examined and visualised per speculum. No clinically significant abnormalities were detected.

Both ovaries (left and right) were examined per rectum. No significant abnormalities were detected.

Udder and mammary glands were examined. No clinically significant abnormalities were detected.

No further tests (including ultrasound) were performed at this time.

Dr Eoin Kelly MVB MRCVS
