Yarraman Park

Lot number: 242

24/3/20

The above horse was examined today at the request of Mr. Harry Mitchell. The findings of a clinical examination were as follows:

- 1) Sound at the walk
- 2) Had normal hoof capsules and soles
- 3) Had no observable swellings - joint distension or otherwise
- 4) Had normal eyes & vision
- 5) Heart was in normal rhythm
- 6) No parrot mouth or other hereditary defect was observed
- 7) Two descended testicles of adequate size present.
