Lot 248 - Touched In Flight_Not A Single Doubt '18 **VETERINARY REPORT** **Tuesday, March 24, 2020**

Microchip No: 985100012151347

NS: W over P

OS: 23 over 8

This bay colt was presented to me at Willow Park on 23.03.20. An examination was requested by stud management due to concerns that veterinarians may have difficulty attending the horse at the upcoming 2020 Australian Easter Yearling Sale due to Coronavirus travel restrictions.

The eyes and eyelids were examined with a bright light and no abnormalities were detected. Ophthalmoscopy was not performed.

The heart was auscultated, and no murmurs or arrhythmias were detected.

Two testicles were palpable.

The horse was sound at the trot.

An upper respiratory laryngoscopic evaluation was performed and no conditions listed under Section 13.2(d) were detected.

Yours sincerely,

Rowan B Sedgwick BVSc (Hon) MANZCVS
AVA No: 2177 VPB No: N5770

Please ensure that this report is forwarded to the horse's owner and the person responsible for the future care of the horse, as well as to the insurer, if applicable.
