

**31<sup>st</sup> March, 2020**

**VETERINARY REPORT**

**Exceed And Excel x Zenaida 2018**

The above-mentioned colt was examined on the above date at Two Bays Farm, Victoria.

The colt stands 15.2HH and weighs approximately 450kg.

Examination of the left and right eyes with a bright light found no abnormalities.

On auscultation of the heart a normal rate and rhythm can be heard with no abnormalities detected.

The colt has normal occlusion of the jaw with no undershot jaw observed.

The colt's rectal temperature is within normal limits.

The colt is sound when examined at walking pace in a straight line.

On palpation two testicles of adequate size are present.

On examination of the distal limbs no joint distention, scars or swelling can be observed.

There is no evidence of any other health issues.

Should there be any questions regarding this examination, please do not hesitate to contact the clinic on the details provided below.

At the request of Steve & Ceri Jostlear of Ampulla Lodge, a veterinary examination of the above horse was undertaken at Ampulla Lodge, Bunyip, Victoria on **24/3/2020 at 9.30am.**

### Clinical Examination

The clinical examination included heart auscultation, eye examination including ophthalmoscope examination, ears and teeth and tongue examination. No abnormalities were found. Incisors and rostral mouth were normal (no parrot mouth).

Limb flexion and joint, tendon/ suspensory ligament and soft tissue palpation of the limbs was normal with no palpable joint effusion or significant swellings.

Foot examination with normal hoof capsules (unshod) was normal.

Examination of the body skin surface and on palpation was normal.

The sheath was normal; both testes were descended, normal in size and appearance and on palpation.

There was no evidence of previous abdominal surgery, infection or disease, laminitis or ataxia.

The horse was in very good health and condition with no reported disease or illness.

The horse was reported to be on no medication.

No vices had been observed.

The horse was examined at rest and at the walk only.

The horse exhibited a very good walk in a straight line with a well-balanced turn to the left and to the right.
