

Veterinary Report

This is to certify that on 26.4.21 I examined a bay thoroughbred colt identified as **Stratum Star - Nouvelle Charm 2019** at Foxhill in Tamworth New South Wales.

Microchip: 985100012175129

Brands: NS gothic f OS 1 over 9

Height: approx. 16 hands

The eyes and eyelids were examined with a bright light (no ophthalmoscopy) and no abnormalities were detected.

The horse had a normal incisor bite

The heart was auscultated – no abnormalities detected.

The colt had two testicles present.

The horse was sound at the walk with no evidence of club feet – no flexion tests performed.

Upper airway endoscopy: grade 2 (lane scale)
